THE NURSING VOICE

• In every situation we find ourselves in as nurses, we make a fundamental difference in that situation, a difference that is profound and long lasting to that person.

• From the bedside to the boardroom, nurses should use the voice of our profession to advocate for, care, comfort and help.
WHAT DOES IT TAKE TO CREATE THE NURSING VOICE AND ENSURE IT IS HEARD?

If you give up on the idea that your voice can make a difference, then other voices will fill the void

— Barack Obama —
WHY IS THIS VOICE IMPORTANT?
WHAT WILL THIS VOICE RESULT IN?
